— \$ CAT ABOUT.MD

DevOps/Cloud engineer with over a decade in infrastructure, **automation** and platform reliability at scale – AWS, Terraform, SaltStack and containers. Always into the latest the industry offers, with focus now fully on **AI and agents**: I build **agent-powered pipelines and operations** (Claude, MCP), blending classic SRE with LLMs. **Open to new clients** for short and medium-term projects.

— STACK

// infra & cloud

aws terraform cloudformation docker salt github actions azure devops

// sysadmin

linux rhel ubuntu systemd bash ansible nginx

// observability

grafana prometheus nagios prtg

// ai & agents

claude openai mcp

— EXPERIENCE

Sr. DevOps Engineer @ Boreal IT

Jul 2025 – Present

Argentina

Sr. DevOps for an enterprise client across two platforms: a ~500 Linux terminal fleet and cloud microservices.

- **Cloud & IaC**: modular, config-driven **Terraform** on AWS – remote state (S3/DynamoDB), KMS, Secrets Manager & Parameter Store with per-client isolation.
- **Containers & CI/CD**: **ECS Fargate** microservices, **GitHub Actions** with OIDC, multi-stage builds to ECR, automated semver releases.
- **SaltStack at scale**: led config management for ~500 Linux terminals; migrated legacy pm2+ZIP to Salt-managed **Docker + systemd**.
- **Observability & SS0**: Prometheus/Grafana/Loki/Mimir + Nagios/PRTG; Keycloak OIDC; **AI agents** (Claude, MCP) to automate operations.

aws terraform salt ecs github actions

CloudOps SSr. @ Avature

Oct 2024 – Jul 2025

Argentina

Cloud operations for the HR/Talent platform.

- **Platform ops**: cloud operations support; server administration, **NGINX & DNS**.
- **Automation**: user provisioning and support-workflow automation.

nginx dns automation

DevOps Engineer SSr. @ Globant (Royal Caribbean)

Apr 2024 – Sep 2024

Argentina

Application support in mission-critical 24/7 environments.

- **Incident Commander** during 24/7 production incidents.
- **Troubleshooting**: API resolution with Postman + **Grafana** log analysis; scripting automation.

grafana postman scripting

EXPERIENCE (CONT.)

DevOps Engineer @ Boreal Technologies

Oct 2021 – Apr 2024

Argentina

Improved deployment and operational processes.

- **Deployment pipelines:** workflow management to boost efficiency and reduce downtime.
- **Monitoring & automation:** early-detection solutions and scripting of routine tasks.

ci/cd monitoring scripting

Unix/Linux SysAdmin @ SONDA

Jan 2021 – Oct 2021

Buenos Aires, AR

AIX and Linux (RHEL) systems administration.

- **System administration:** AIX & RHEL servers – LVM, systemd, advanced troubleshooting.
- **Reliability & backups:** custom monitoring scripts; backup automation (Bash/NFS/ReaR).

linux rhel bash

SAP Basis Jr. Consultant @ SONDA

Apr 2019 – Oct 2021

Argentina

Foundational support and administration for SAP environments.

- **SAP Basis:** system administration ensuring high availability.
- **Tooling:** maintained an internal Bash framework for housekeeping & monitoring.

sap linux bash

IT Support @ Atos IT Solutions and Services

Jul 2017 – Jul 2018

Córdoba, AR

End-user hardware/software troubleshooting and ticket management in fast-paced environments.

it-support troubleshooting

Head of Local Infrastructure @ Admotion S.R.L.

Nov 2014 – Nov 2016

Buenos Aires, AR

Led local infrastructure operations: Windows Server systems and **Fortinet** networking.

windows-server fortinet networking

Infrastructure Support @ Admotion S.R.L.

Mar 2012 – Nov 2016

Buenos Aires, AR

Infrastructure support, troubleshooting and process documentation.

windows troubleshooting

LET'S WORK TOGETHER

Open to new clients for short & medium-term projects – infrastructure, automation and AI agents. Let's take your platform to the next level.
